

# It Can Happen

## Yes

You can fool yourself  
You can cheat until you're blind  
You can cut your heart  
It can happen  
You can mend the wires  
You can feed the soul apart You reach  
It can happen to you  
It can happen to me  
It can happen to everyone  
Eventually A constant fight  
You're pushing the needle to the red  
Who knows who's right  
No substitute, you're born, you're dead  
Created out of fantasy  
Our destination calls Look up, look down  
Look out, look around  
Look up, look down  
There's a crazy world outside  
We're not about to lose our pride It can happen to you  
It can happen to me  
It can happen to everyone  
Eventually As you happen to say  
It can happen today  
As it happens  
It happens in every way This world I like  
We architects of life  
A song, a sigh  
Developing words that linger  
Through fields of green through open eyes  
This for us to see Look up, look down  
Look out, look around  
So look up, look down  
There's a crazy world outside  
We're not about to lose our pride It can happen to you  
It can happen to me  
It can happen to everyone  
Eventually As you happen to say  
It can happen today  
As it happens

It happens in every wayAs you happen to see  
It will happen to be  
Nothing happens  
To nowhere and nowhereLook up, look down  
Theres a crazy world outside  
Were not about to lose our prideIt can happen to you  
It can happen to me  
It can happen to everyone  
EventuallyAs you happen to see  
It will happen to be  
Nothing happens  
To nowhere and nowhereYou can fool yourself  
You can cheat until youre blind  
You can cut your heart  
It can happen as it happens  
It happens in every way[Incomprehensible]  
You can feel the soul apart  
You touch your life  
You can bring your soul alike[Incomprehensible]  
It can happen to you  
It can happen to me  
It can happen to everyone  
EventuallyAs you happen to see  
It will happen to be  
Nothing happens  
To nowhere and nowhere
