

With You

Tony Terry

Yeah, just like that
Yeah, yeah When Im with you, I hear a sound
That makes me laugh and smile and sing to you
When Im with you, I feel so free
I love that love is going to take control of me When Im with you
Its for real, what I feel
When Im with you When Im with you, I wonder why
People do stop and stare and smile at us
When Im with you, the sun shines my way
Baby, our love reflects its rays of light
On everyone in the world When Im with you
Its for real, what I feel
When Im with you Special touch, a warm embrace
A sweet and tender care, your smile
Body warm my heart, so pure
Chills when I look, look in your eyes I wonder why people do stop and stare and smile at us
When Im with you, the sun shines my way
Baby, our love reflects its rays of light
On everyone in the world When Im with you
Its for real, what I feel
When Im with you, you Oh, girl, I love you, baby
Yeah, yeah, yeah Yes, I do
Yeah, yeah, yeah Yes, I do
Id give the world to you, baby
Oh, oh, yeah When Im with you, baby
Its for real, what I feel
When Im with you, yeah, yeah, yeah Everything, everythings alright
When Im with you Its for real, what I feel
Its okay, gonna pray every day
Its so nice, so right now
When Im with you, nobody but you
Honey, I love you, yeah
