Round Every Corner

Petula Clark

'Round every corner, 'round every corner
'Round every corner, 'round every corner
'Round every corner, 'round every corner
'Round every corner, 'round every corner
Stop feeling sad now, life ain't so bad now
'Round every corner, 'round every corner
While you're debating, something are awaiting
'Round every corner, 'round every corner
When Columbus sailed away to other shores
How could he imagine all that waited for him?
'Round every corner, 'round every corner
'Round every corner, 'round every corner
Leave all the blue days, think about the new days
'Round every corner, 'round every corner
Everything is yours now, open all the doors now
'Round every corner, 'round every corner
Man will soon be standing on the moon above
Just imagine all the things that he'll discover
'Round every corner, 'round every corner
'Round every corner, 'round every corner
You've gotta stop sittin' there on the shelf
You've gotta start lookin' out for yourself, yeah
'Round every corner, 'round every corner
'Round every corner, 'round every corner
What's the use in crying, happiness is lying?
'Round every corner, 'round every corner
And if you want a true love, look for a new love
'Round every corner, 'round every corner
Just forget the worries that you leave behind
There are many things to do and you can find them
'Round every corner, 'round every corner
'Round every corner, 'round every corner
'Round every corner, 'round every corner
'Round every corner, 'round every corner
'Round every corner, 'round every corner
'Round every corner, 'round every corner
