

Refresh the Demon

Annihilator

I cannot lose control, they'll drag me down down the hole
Must win the battle, I must win the war
Just buy our product and you'll want more
We say, refresh, refresh the demon Subliminal, yet direct, another billion to collect
Another flavor to satisfy, they forgot to tell you it's all a lie
Let's raise a glass to the young, models and athletes they'll become
So sip the poison, sip the wine, suck your life out, you're doing fine We say refresh, refresh the
demon Temptation, frustration, it ain't easy to beat
Condition, addiction I shall defeat, back against the wall
I'm through, There is only one thing left to do
That is to fight the demon
