Turn On a Dream

The Box Tops

We're too far away from each other
We got to get together
'Cause all I want to do is think about you
Don't you know there's no other?Turn on a dream, girl
It's a beautiful thing to dream, girl
Just think about you and me, yeah
And how it could be, why can't you see?What can I do? You won't let me show you
Don't you know that I know you?
When I'm down and my daytime's blue, I get by thinking of youJust turn on a dream, girl
Thats all I wanna do is dream, girl
Just think about you and me, yeah
And how it could be, why can't you see?I close my eyes I can see
I can feel that it's real
I can turn out the sad, turn on the gladShifting sand like an hourglass
Waiting for the time to pass
But I'll keep waiting like I always do
Dreaming sunny dreams of youJust turn on a dream, girl
Thats all I wanna do is dream, girl
Just think about you and me, yeah
And how it could be, why can't you see? Yeah
