

Jealous Lover

Rainbow

Lost and lonely
Clouds hide the sun
Out on the highway
It's all hit and run Cold empty nights
Demons in my head
It's something I did
Or baby something you said And it's hard to discover
That you're just another
Jealous lover
And it's so tough to take
But you're making no mistake
Jealous lover
Oh yeah
Don't want no other Shades of red
Eyes of green
Sees black and white
And there's no in between Ask me no questions
I'll tell you no lies
Still you keep thinking
That it's all alibis And it's hard to discover
You're like any other
Jealous lover
And you're saying I'm a fake
Don't you making a mistake
Oh, no no Every day it's the same
The faces and the names
How long can I go on
Playing this game So I live for the nights
Soft candle lights
Today they love you
Then tomorrow they might And it's hard to face
Someone else takes your place
Jealous lover
And they're saying that's the brakes
But I got what it takes
Jealous lover, ohh oh
Jealous lover
Jealous lover Don't need no, no no
Don't need no other

Jealous lover, yeah

Jealous lover
