## The Mars Volta

When the chants have cycled  
How can I go wrong?  
There will be no Eve for Adam  
If your apples have gone, gone, gone, gone  
I need  
A brand new skin  
Incarnated debts  
Incarcerated when  
The deeds are left to purchase

If you could see where I've been  
You'd touch the hand that's touching sin  
Entity ingredient  
A mass of blackened scapes begins

Cypher is filled  
Blanket of clots  
Taking everything I've got  
Please let me in, in, in, in  
I need  
A brand new skin  
Incarnated debts  
Incarcerated when  
The deeds are left to purchase

If you could see where I've been  
You'd touch the hand that's touching sin  
Entity ingredient  
A mass of blackened scapes begins

[x2]  
Follow me tonight  
Follow me into oblivion

If you could see where I've been  
You'd touch the hand that's touching sin  
Entity ingredient  
A mass of blackened scapes begins  
I seem to hide in metal plates  
Held together alone don't wait

Hide with me identity  
Until we've passed due date

[x3]

Can't spot through the lens  
I'm bleeding through your sanctuary

Intention accident  
I'm bleeding through your sanctuary

Can't spot through the lens  
I'm bleeding through your

Your sanctuary
