# Trippin'

## Edwin

Trippin' around downtown
Throw me a cross, throw me a bone, yeah
Street kid comes along let me through
He says I'm higher than you knowI feel like a star
I feel like a starKickin' the can around the air is high
My mouth dry feeling mellow
Sweet thing comes along
I say hello, she says hello and as you knowI feel like a star
I feel like a star
It's never very far
I feel like a star
You're never very farFalling down burnin' up shooting through
The sky watch the meteor fly
Gather 'round, gather 'round
Watch me as I hit the groundTrippin' around downtown
Throw me a cross, throw me a bone, yeahI feel like a star
I feel like a star
It's never very far
I feel like a star
Yeah yeah yeahFalling down burnin' up
Shooting through the sky watch the meteor fly
Gather 'round, gather 'round
Watch me as I hit the ground
Watch me as I hit the ground
