

How Could I Fall

Simply Red

How could I fall for someone so superficial?

Funny how the things

That you can never have needle you more

Tired of standin' in the rain

Prayin' for sunshine again

I remember your eyes

Wish I could see through them

Wish I could see through them

How could I fall?

If I could?

Our love was like the wind

We blew it away

Tired of dealin' with your games

Prayin' I'll never need you again

I remember your eyes

Wish I could see through them

We could have loved so much, yeah

Why didn't we try make it through them?

Would it have been enough yeah?

If I could?

I remember your eyes

Wish I could see through them

Wish I could see through them

How could I fall?

If I could?
