

Now or Never

Ag Silver

Oh God look at what we've done we've made a mess of love, a mess of love
Oh God look at what we've done we lost and no one's won and no one's won
And oh boy it looks like its now or never, and boy it looks like its now
I am lost and but i am find in the hedom of the ground, i've been seaching for
some sort of way to say, i can sing i can dance, i will fake this whole romance,
I am nothing except for a part of the whole, except for the part of the whole.

Oh God look at what we've done we've made a mess of love, a mess of love
Oh God look at what we've done we lost and no one's won and no one's won
And oh boy it looks like its now or never, and boy it looks like its now
I am lost and but i am find in the hedom of the ground, i've been seaching for
some sort of way to say, i can sing i can dance, i will fake this whole romance,
I am nothing except for the part of this
Oh God it looks like its now or never, and God it looks like its now or never
God looks like its now, God looks like its now.

God it looks like its now, God it looks like its now, God looks like its now or never
God it looks like its now.

Oh God it looks like its now or never, and God it looks like its now or never,
God it looks like its now, God looks like its now, Oh God it looks like its now or never,
Oh God it looks like its now or never, oh God it looks like its now, God it looks like its now
