Generation Express

Kik Tracee

(Lyrics: Stephen Shareaux
Music: Mike Marquis, Rob Grad)
Everybody wants to ride the extra mile
We'll be trippin' at eleven o'clock on the next arrival
You know that everybody's got to want to be a survivor
We're gonna give this generation a kick
Kick the masses asses
Doin' it right, situation
Doin' it right, we're gettin' on the line
Doin' it right, everybody to the station
Yeah
We're gonna rock the generation
Ride the generation express, yeah
We're gonna rock the generation
Ride the generation express
You wanna think about a different time, place and go there
It seems you never know what you're gonna find
This ain't no train to nowhere, nowhere
You know that everybody wants to ride a reason
We're gonna give this generation a kick
This train is leaving, leaving, leaving
Think about it, dream about it
Get yourself a seat, don't be lazy
We'll be cruising through the colors of time
A different way, come on
Don't you know, it's time for a change
Don't you know, it's time for a change
Rock the generation, ride the generation express
Think about it, dream about it
Oh yeah, hey you
Don't you know you've got to move and
Rock the generation, ride the generation express
With the gangs in the streets
And the God damned freaks
I've been livin' from here to Hell
I've been up, been down
Been kicked back 'round
Everyday of my funky life
'Cause it's a generation
