

# Strange Thing (Demo)

## Oasis

Here lives a pocket full of lives with no future  
Take it for what it is, it's only drunken lies  
You should open up your mind, look to the future  
You could be waiting for the ship that sails you home, I'm going home  
What would you give me for the songs  
that I've been singing  
How could you ever say that you've got more than me?  
Mick says that he can never get no satisfaction  
These days I think I know exactly what he means, what does he mean?  
You won't get, you don't get what you  
need  
Life is a strange thing  
You won't get, you don't get what you need  
Life is a strange thing now  
Here lives a pocket full of lives with no future  
Take it for what it is, it's only drunken lies  
You should open up your mind, look to the future  
You could be waiting for the ship that sails you home, I'm going home  
You won't get, you don't get what you  
need  
Life is a strange thing  
You won't get, you don't get what you need  
Life is a strange thing now
