A Long Time Ago

Timothy Bloom

I 've taken my chances
Not like this before but your a scar
Love has its boundaries
If I crossed the line, it be all on me
Singing (oohhh)
If I let you get away, baby get away
Its far to late (hmm)
I ain't going to lie
I sit and I wonder how would it be
In my mind if things were only .
different
We should have met a long time ago . (yeah)
We should have met a long time ago . (ohohoh)
We should have met a long time ago
Took the keys to daddy's
convertible
Mustang
Ain't no time machine but we can .
drive fast, fast
Wind in my hair you said baby we .
won't look back
Cause this love was meant to last
I ain't going to lie
Sometimes I wonder how would it be
Tears in my eyes
When I awake from my daydream
We should have met a long time ago . (yeah yeah)
We should have met a long time ago . (yeah)
We should have met a long time ago
Well maybe in another life when the .
stars align
If that day every comes i'll make .
you mine (yeah)
If their was a vacancy
Put your love inside of me
No I ain't going to lie
Sometimes I wonder how would it be . (how would it be)
