

Walk on Air

Minus the Bear

Why would you let me feel like I could walk on air
Why would you leave me standing alone up there
How it feels reaching for
How it feels falling from
So I
Can't let it go on like this (Can't let it, Can't let it)
Let it go on
Can't let it go on like this (Can't let it, Can't let it)
Won't let it go
I can't see how you operate
I don't know what you're thinking
I've said too much, too much
By just standing this way
Is it my fault for everything?
Can't let it go on like this (Can't let it, Can't let it)
Let it go on
Can't let it go on like this (Can't let it, Can't let it)
Won't let it go
(Can't let it, Can't let it)
(Can't let it, Can't let it)
Won't let it go
(Guitar Solo)
I can't see
I don't know
How you operate
What you're thinking
Can't let it go on like this (Can't let it, Can't let it)
Let it go on
Can't let it go on like this (Can't let it, Can't let it)
Can't let it go
(Can't let it)
Won't let it go
(Can't let it, Can't let it)
Won't let it go
