Around The Corner Of Your Eye

A*Teens

Around the corner of your eye
Running fingers through your hair
While you're asleepEvery time I call your name
Or softly whisper in your ear
You turn around to look for me
And no one's thereWhere ever you are
Where ever you go, I'll be around
I'll be around just want you to knowIf you're lost without me
Wondering where I might be
I'll be waiting just
Around the corner of your eyeLike an angel watching
Meet me when you're dreaming
I'll be waiting just
Around the corner of your eyeI could be your pot of gold
Everything you're wishing for
But do you really want to find
The rainbow's end?Let me know and I'll come true
I will give my all to you
But don't let anybody take
Your dream awayWhere ever you are
Where ever you go, I'll be around
I'll be around just want you to knowIf you're lost without me
Wondering where I might be
I'll be waiting just
Around the corner of your eyeLike an angel watching
Meet me when you're dreaming
I'll be waiting just
Around the corner of your eyeThere's a song playing in every heart beating
In a key that unlocks every door
There's a time for knowing what's behind the curtain
And it's all you're wishing for
