

# Some Remove

## Lieutenant

An uncommon home for a common animal  
Its body is smooth where you once could find hair  
Live by the law that nobody voted on  
By chance some are mean and others will move like swan  
Search for a mark that'll measure distance won  
Its body once moved but now the race is run  
A mountain of gold juts up from a desert of lead  
So far away from all the many fled  
Elegantly I pack for disaster  
Too close to pass me by  
Wind topples down a tree to my rooftop  
Water falls down inside  
Elegantly I pass the disaster  
Waiting rakes at my pride  
Sirens search for the call  
Numbers fall dark at night  
Need a little help filling in the gaps  
Safety in numbers, of some kind  
Need a little help sorting out the gaps  
The equation's just not right  
An uncommon home for a common animal  
Its body is smooth where you once could find hair  
Live by the law that nobody voted on  
By chance some are mean and others move like swan  
Elegantly I pack for disaster  
Too close to pass me by  
Wind topples down a tree to my rooftop  
Water falls down inside  
Elegantly I pass the disaster  
Waiting rakes at my pride  
Sirens search for the call  
Numbers fall dark at night
