

# Flying Solo

**Keri Noble**

Flying low when a voice on the radio  
Says, "Do you know  
You were flying much to low"  
There's danger in the air but I don't care, oh no  
No one there to hold your hand  
Nobody to change your plans  
Flying solo, your life is in your hands  
Flying solo  
All alone, not a friend in sight up here  
I'm lost in a cloud, I am flying much too low  
I've got a head for heights but I fear  
Coming down slow  
No one there to hold your hand  
Nobody to change your plans  
Flying solo, your life is in your hands  
Flying solo  
Flying solo, your life is in your hands  
Flying solo  
No one there to hold your hand  
Nobody to change your plans  
Flying solo, your life is in your hands  
Flying solo  
Flying solo, your life is in your hands  
Flying solo  
Flying solo, your life is in your hands  
Flying solo
