

Shine

Nikki Flores

No room for a mistake
Sometimes it's hard to get it right
I don't have the time to waste
Cause my stars are perfectly aligned
Some people even say, "That I seem a little bit uptight"
But I just smile and say. "that right were I should be"La la la la la (la la la la la)
I won't settle for less there's no second best
La la la la la (la la la la la)
Never backing down, Going to stand my groundHey yeah, this is what I'm made for
turning my own tables
Giving all I've got until I make it
Forget every moments worth it
Gets a little closer to my time...
To Shine!No other path to take
Yeah, all I've got is my first try
Might fall along the way
But I stand because I be alright
If my skies turn to grey, lost in the darkness of the night
Then I'm going to pave the way
Got a light that shines insideLa la la la la (la la la la la)
I won't settle for less there's no second best
La la la la la (la la la la la)
Never backing down, Going to stand my groundHey yeah, this is what I'm made for
turning my own tables
Giving all I've got until I make it
Forget every moments worth it
Gets a little closer to my time...
To Shine!Every detail, every line
Cross my t's and dot my i's
Ready for my time to shine
Work so hard to claim my prize
There's no such thing to be to ready
Try your best and just hold steady
You know you've earned it
Every things perfect! YEAHHHH!Hey yeah, this is what I'm made for
turning my own tables
Giving all I've got until I make it
Forget every moments worth it
Gets a little closer to my time...

To Shine! Hey yeah, this is what I'm made for
turning my own tables
Giving all I've got until I make it
Forget every moments worth it
Gets a little closer to my time...
To Shine!
