

# We're All To Blame

## Sum 41

{Far in oh, are we singin'?} Take everything left from me.  
(All to blame)

How can we still succeed, taking what we don't need?  
Telling lies, alibis, selling all the hate that we breed

Supersize our tragedy  
(You can't defy me, or justify greed)

Bought in the land of the free  
(The free) And we're all to blame

We've gone too far  
From pride to shame  
We're trying so hard  
We're dying in vain  
We're hopelessly blissful and blind

To all we are

We want it all

(With no sacrifice) Realize we spend our lives living in a culture of fear

Stand to salute say thanks to the man of the year

How did we all come to this?

(You can't defy me, or justify greed!)

It's greed that we just can't resist

(Resist) And we're all to blame

We've gone too far  
From pride to shame  
We're trying so hard  
We're dying in vain  
We're hopelessly blissful and blind

To all we are

We want it all

Everyone wants it all with no

(Sacrifice) Tell me now, what have we done? we don't know

I can't allow what has begun to tear me down

Believe me now, we don't know just what

With our backs against the wall And now we're all to blame

We've gone too far  
From pride to shame  
We're hopelessly blissful and blind  
When all we need  
Is something true  
To believe

Don't we all?  
Everyone, everyone  
We will fall 'Cause we're all to blame  
We've gone too far  
From pride to shame  
We're trying so hard  
We're dying in vain  
We want it all  
Everyone, don't we all?
