

# My Girlfriend's Girlfriend (cheese Organ Mix)

## Type O Negative

It's no secret we're close  
As sweaty velcro  
Like latex, fur and feathers  
Stuck together now  
In their '62 'vette  
Sharing one cigarette  
In a black light trance then  
Go, go dance then  
Go, go trance then  
They keep me warm on cold nights  
We must be quite a sight  
In our meat triangle  
All tangled, wow  
My girlfriend's girlfriend  
She looks like you  
My girlfriend's girlfriend

She's my girl too  
Her and me, and her and she, and me  
An uncrowded couple, are we three?  
Hey, we don't care what people say  
When walking hand in hand down Kings highway  
Two for one today  
My girlfriend's girlfriend  
She looks like you  
My girlfriend's girlfriend  
She's my girl too  
My girlfriend's girlfriend  
She looks like you  
My girlfriend's girlfriend  
She's my girl
