At Your Best

Sarah Blasko

It's you against the world, I don't think so
They wouldn't stand a chance now girl
And even when your back's on the ropes
I can tell, you'll get them by the final bellIf only you were at your best
Instead of fighting yourself as well
If only you were at your best
Instead of fighting yourselfYou're high above the world, I don't think so
If you're hanging around me girl
And even when you try to call
I know you stall, you climb another story tallIf only you were at your best
Instead of fighting yourself as well
If only you were at your best
Instead of fighting yourselfDon't let your mind change you this time
Don't let the tide turn you tonightIf only you were at your best
Instead of fighting yourself as well
If only you were at your best
Instead of fighting yourself
