Hold Back the Night

Aldo Nova

I've got a lover
Giving me the heat
A burning fever
And it's leaving me weakMy heart's on fire
And I'm losing control
'Cause when the morning comes
I can never let her goHold back
Hold back the night
I couldn't stand to lose you by daylight
Hold back
Hold back the night
There's so much to give
I'm begging you to
Hold back
Hold back the nightThis desire feels so sweet
Taking me higher
What happening to me?
My body's shaking
Like it never has before
'Cause you got me aching
For you more and moreHold back
Hold back the night
I couldn't stand to lose you by daylight
Hold back
Hold back the night
There's so much to give
I'm begging you to
Hold back
Hold back the nightHold back the night
Hold back the night
Hold back the nightOh yeah
Come over here
Tell you something, tell you something
Yeah, yeah, come onWell, I got a lover, a lover
She's giving me the heat
It's like a fever
Ooh, it's leaving me weak, yeahOh, my heart's on fire
And I'm losing control
But when the morning comes

I can never let her goHold back
Hold back the night
I couldn't stand to lose you by daylight
Hold back
Hold back the night
There's so much to give
I'm begging you to
HoldHold back
Hold back the night
Hold back
Hold back
