

Paradise

Kaci Battaglia

Could it be the little things you do to me
feelings that i'm feeling are so ?meant to me?
I'm going through so many changes
nothing ever felt as strange as
how my heart goes crazy when you look at me

When I'm with you its paradise
No place on earth could feel so nice
Through the crystal waterfall I hear you call
Just take my hand its paradise
You kiss me once I'll kiss you twice
As I gaze into your eyes i realize its paradise
Ooohhh yea

Now I know the sweetest dreams can all come true
'cause I found heaven here on earth when I found you
Its nothing I can ever make up
oh I hope I never wake up
just to find this isn't true reality

When I'm with you its paradise
No place on earth could feel so nice
Through the crystal waterfall I hear you call
Just take my hand its paradise
You kiss me once I'll kiss you twice
As i gaze into your eyes I realize its paradise
Ooohhh

The world around us disappears without a trace
Telling me that I have found the perfect place
Let us stay this way forever deep in love
and may I never
spend another day w/out you close to me

Ohhh Paradise
Yea yea yea yea yea
Ohhhhhhh

Just take my hand its paradise
you kiss me once I'll kiss you twice

as I gaze into your eyes I realize its paradise

Just take my hand its paradise
you kiss me once I'll kiss you twice
as I gaze into your eyes i realize its paradise

As I gaze into your eyes I realize its paradise
oh yea
oh (its paradise)
ohhh
