In It For the Money

Supergrass

Here I see a time to go and leave it all behind
And you know it's wrong to fallWe're in it for the money
We're in it for the money
We're in it for the money
We're in it for the money
We're in it for the money
We're in it for the money
We're in it for the moneyGot my mind made up
I got my finger on the button going way home
I got the sun turned down
Got a feeling in my pocket going way homeBut all I can see is our love
And all I can hear is her
But all I can see is our love
And all I can hear is herGot my mind made up
I got my finger on the button going way home
Got the sun turned down
Got a feeling in my pocket going way homeGot my mind made up
I got my finger on the button going way home
Got the sun turned down
Got a feeling in my pocket going way homeGot my mind made up
I got my finger on the button going way home
Got the sun turned down
Got a feeling in my pocket going way home
