Bleed

Catatonia

Now, his intentions unfold, they're not what they seem
He only wants to take control
Boy, is he selling you loads, all you do is conceive
Grant him his black-eyed fantasyHe claims that he knows you, says it's written in the stars
Do you believe this bullshit?
Tell me you don't wanna face this situation
Any more than I doOh, you think you're so great, keep it up at this rate
You're bound to catch it if you wait
I've seen the symptoms before, they come as they please
Here comes the low rent man againHe claims that he knows you, says it's written in the stars
Will you believe this bullshit?
Tell me you don't wanna face this situation
Any more than I do
