

# Wtf I Want To

## King Chip

Yep

Chip

Nigga I can remember living in cars

Fuck the world, living is hard

Making mistakes and fixing them up

Either that or not giving a fuck

Because problems show up as much as the girls

Knock on the door, into my world

Hope you brought some weed my nigga

Break it on down, here goes the zig

Baby say we can tear up this hotel

As long as I promise to her I won't tell

Cause she be on tv reportin' the news

Never thought I'd get a load of those boobs

Sometimes you win, sometimes you lose

Unless you play no games and say fuck the rules

And do what you want

Say what you feel

I am no asshole, I am just real

Being polite that's just being fake

Hard on myself but that's bein' great

Ninety-nine times out of ten I be late

But when I show up, set up the wake

Killed their ass, roll up more grass

Pour some more RÃ©my up off in this glass

You having some fun, or having a blast?

Settle for less, nah I'll pass

Imma do what the fuck I want to And Imma buy what the fuck I want to

Roll up and tell them girls to come through

Only if we can do whatever I want to I can remember living outside

Ain't have no food, but still had my pride

Now in a four bedroom house I reside

Mercedes and Lexus that's what I ride

Came a good way from throwing hair dry

Most of my niggas no longer alive

Walk in the mall, they looking suprised

We going to be swagging the rest of our lives

Can't believe they had the indignation

To say I ain't repping

Bitch I paid the way for your soft ass, I'm Cleveland legend

I worry about death when it comes

Right now I'm [?]

Bitch I'm from Cleveland, yeah nigga that's my creation

Been running my town I'm not tired

Fuck with King Chip get a Lahar

We can burn these haters in a bonfire

Bitch I've been around since LimeWire

Shoutout to the [?]

Can't forget about my niggas on Superior

Riding down St: Clair in a white thing

Two hoes in my interior

Imma do what the fuck I want to

And Imma buy what the fuck I want to

Roll up and tell them girls to come through

Only if we can do whatever I want to
