

My Night Sky

DevilDriver

Desperate in your sadness
So wear black cloth, burning..
Like a flame to a moth.
We flicker the heart,
And silence the sound, burning...
Put all yam dreams down.
Born into bondage,
Meant to scorch the sky,
By any Means
Fucking hustle through life!
I've realized
I'm not sorry anymore you've poisoned the wine
And IT'S MY NIGHT SKY! I was beat down by a slow drug
Over the embers and through the flood!
I'm BUILT FOR THE KILL
(It's my night's Sky) The scars Are not visible,
Was I even here at all
Born into bondage.
Meant to scorch the sky,
By any means Fucking hustle through life!
I've realized
I'm not sorry anymore you've poisoned the wine
And IT'S MY NIGHT! I was beat down by a slow drug
Over the embers and through the flood!
I'm BUILT FOR THE KILL
(It's my night's Sky) Be Gone Be gone
The ground moves and shakes
Be Gone Be gone
You live with your mistakes
Be Gone be gone
It's between the Devil and Me Be Gone be gone
And forever hold your tongue! It's MY Night's SKY!
I'm BUILT FOR THE KILL
(It's my night's Sky)
