

Ghost (Thomas Newson Remix)

Mystery Skulls

'Cause the world might do me in
It's all right cause I'm with friends
Cause I'm giving up again
It doesn't matter And I'm feeling like a ghost
And it's what I hate the most
'Cause I'm giving up again
And this time (this time, this time) This time I might just disappear
This time I might just dis
This time I might just disappear
This time I might just dis Try and hear me then I'm done
'Cause I might just say this once
Seen this played out in my dream
It doesn't matter Time for givin' up the ghost
Fuck, it's you I hate the most
And there is no guarantee
It doesn't matter This time I might just disappear
This time I might just dis
This time I might just disappear
This time I might just dis
