

# DecisiÃ³n

## Barni

This time you should know  
Like the first time that I saw you there alone  
Like the first time that I knew you were my ownThe way you made me feel  
Like I was something that you couldn't live without  
Like I was someone that you couldn't be withoutSomething came in between us  
Something made a change in you  
What can I do?So you made your decision  
I guess it's you that I'll be missin'  
I lie alone in bed just wishin'  
That I had been the one, that I had been the oneThis time you should know  
The way you made me feel so helpless and alone  
Erase the memories of all we've ever knownSomething came in between us  
Something made us break in two  
What can I do?So you made your decision  
I guess it's you that I'll be missin'  
I lie alone in bed just wishin'  
That I had been the one, that I had been the oneNow I think I'm goin' crazy  
Now you're stuck inside my head  
I don't ever wanna feel this way againWhen you look in the mirror  
Does it all seem clear to you?  
Have I been used?So you made your decision  
It won't be me that you'll be missin'  
I lie alone in bed just wishin'  
That I had been the one, that I had been the oneSo you made your decision  
I guess it's you that I'll be missin'  
I lie alone in bed just wishin'  
That I had been the one, that I had been the one
