

You Got me

The Supervillains

Pretty baby don't start a fight, I can see it in your eyes but please don't do it tonight

Say you wanna leave 'cause I've got plans for you

Well if your gonna leave then fuck you anyway, I can find a new girl by the end of the day

And she won't leave until I tell her to get out So why can't we just enjoy each other? We're always fighting all the time.

Well we could stop and be lovers. we could break up and that would be just fine. Girl, when I'm with you I'm hot (Like I've been smokin sinsemilla all night)

My arms are heavy and my eyes get stuck (Feel my knees shake and I know why I'm hooked)

So please don't tell me it's time to go (i'm on the all alone and I need you so)

Tell me to stay the whole night through, Girl you got me going for you Pretty baby don't get so mad when I say I gotta leave and go on tour with my band, 'cause when I get back, things will be fine.

But if your not here when I get back, live I've said it before it'll be no sweat off my sack,

It's too bad I thought we were the match So why can't we just enjoy each other? We're always fighting all the time.

Well we could stop and be lovers. we could break up and that would be just fine. Girl, when I'm with you I'm hot (Like I've been smokin sinsemilla all night)

My arms are heavy and my eyes get stuck (Feel my knees shake and I know why I'm hooked)

So please don't tell me it's time to go (i'm on the all alone and I need you so)

Tell me to stay the whole night through, Girl you got me going for you
