I Couldn't Keep from Crying

Johnny Cash

I saw you walking by his side
Heard you whisper all those lies
And I couldn't keep from cryingYou sang him love songs tenderly
That should have been for you and me
And I couldn't keep from cryingI saw his eyes drinking your charms
While he held you in his arms
Him with all his wedding ways
Rules your heart now in my placeI stood and watched him steal a kiss
From two lips I know I'll miss
And I couldn't keep from cryingI saw his eyes drinking your charms
While he held you in his arms
Him with all his wedding ways
Rules your heart now in my placeI stood and watched him steal a kiss
From two lips I know I'll miss
And I couldn't keep from crying
