

Awakening

Mae

When I close my eyes
To this paradox place
I'll fly away
Far away from here
I get away and dream
Dream of you When it's all said and done
And the night has come
I'll disappear
Take flight on the wind of wishing you were here
Fading light
Like a star whose life has been gone for years And I'll fly
Fly across the sky
And I'll leave
Leave it all behind
If you'll be here
Here with me tonight
I'll be fine I'll disappear
Take flight on the wind of wishing you were here
Fading light
Like a star whose life has been gone for years
