

Walking With Thee

Clinic

As you climb up the stairs
And come back forever
Summer's in the house
Untamed it was Walking with thee
Walking with thee
Walking with thee
Walking with thee A million joys
A million joys here
You could set your watch
How untamed it was Walking with thee
Walking with thee
Walking with thee
Walking with thee
No, no, no, no, no
No, no, no, no, no, no As you climb up the stairs
And come back forever
Summer's in the house
Oh, untamed it was Walking with thee
Walking with thee
Walking with thee
Walking with thee And melody of joys
And you can set your watch
While hunting new words Walking with thee
Walking with thee
Walking with thee
Walking with thee And with us, oh no
You get good affection
You can set your watch
Or hunting new words Walking with thee
Walking with thee
Walking with thee
Walking with thee No, no, no, no, no
No, no, no, no, no If you climb off the stairs
And come back forever
Someone's in my house or
Hunting new words Walking with thee
Walking with thee
Walking with thee
Walking with thee
