All That 2 Me

One Voice

It only took one look at your face
Only one moment to know you'd be all
One second to know you are the one
I'd be with night and day
It only took one look from your eyes
That matters to me
In just one minute you captured my heart
Exclusively, forever you and me
They sparkled just like the stars above
You brightened up my lifeAs sure as the birds
PREHOOK:
And sure as the fish
That live in the deep blue sea
Fly over the mountains
I just gotta tell you that you're all that to meHOOK:
Like roses blooming in the springtime
When winter comes back again
Like walking in the summer rain
Like cuddling in front of a fireplace
Like the sound of the waves in the ocean
Washing up on the beach
I just wanna tell you that you're all that to me
It only took one touch of your lipsTo you my love I give
One kiss and you took my breath away
Now you're all that matters to me
In a blink of time I had no one at allPREHOOKHOOK 2xI just wanna tell you that you're all that to me
You mean so much to me
3x
