

Who's Been Sleeping in My Bed

Glenn Frey

I came in through the front door
I know I heard the back door slam
Tell me, who do you think you're foolin'
You been messin' with another man

You're actin' very suspicious
You got that guilty look in your eye
And you smell like old spice and whiskey
So there ain't no way you can lie

(Chorus) I said , who's been sleeping in my bed?
Who's been loving you baby?
Who's been playing in my house?
Who's been sleeping in my bed?

Looks like a hurricane hit here
The sheets are all over the floor
And the curtains are drawn in the middle of the day
And the lights are turned down low

Chorus

Well I'm callin' up the hospital, darlin'
Gettin' a room with two beds in your name
'Cause you and your brand new boyfriend
You're about to be together again

Chorus_____ (I wanna know)
