

Hot Lips

Kenny

Little lady

oh little lady you're dancing me off my feet

Little lady

oh can't you feel the heat when you hold meOh when you hold me it feels like I'm going insaneLittle lady can't
get you out of my brain.You fill me up with desire

you take me higher and higher

You kisses burn me like fire

fire

fire

fire:Hot lips

hot lips girl you got hot lips burning me all night long

The feeling's comin' on strong

Baby

you're turning me on.

Hot lips

hot lips girl you got hot lips burning me all night long

Our love can never go wrong

Baby

you're turning me on.

Baby

I love you. Hot lips.When you touch me-oh-when you touch me it feels like I'm gonna die

Watch me baby oh watch me hit the sky. Little lady

oh little lady

You're dancin' me off my feet. Little lady ohCan't you feel the heat.You fill me up with desire

you take me higher and higher

. . .Hot lips

hot lips girl you got hot lips burning me all night long
