On Islands

Camouflage

On islands
we all run
onto islands
in the sun
and the sun to
is an island
with islands
all around
we're all islands
in the sea
and the islands
want to reach
other islands
passing by
an island
in the sky
on islands
everywhere
all the islands
ever there
are all waiting
on an island
that island
stands alone
on islands
on islands
on islands
on islands
