Thrillcapsule

Icon of Coil

One thousand milligrams searching for you
Ain't it already heading for you
Feel your throat burn
Neglecting the pain
Day turns to night
The dawn meets the sun at the sky
I need you to tryIt will defend you
Keep you safe
It will protect you
Keep you dead
I need you to tryBuried with a flat-line, but still alive
Pieces of your brain still haunts me down
Living in a capsule while breathing concrete
Bombshell, lock it up
Feed us with lead
One thousand milligrams searching for you
Ain't it already heading for you
Feel your throat burn
Neglecting the pain
Day turns to night
The dawn meets the sun at the sky
I need you to tryIt will defend you
Keep you safe
It will protect you
Keep you dead
I need you to try
