

Alternatives

The Opposition

Let me show you an alternative
It's not that easy and it's not that clear

I shall be judged in weaker moments
But in the end there's only you
Can you see now there are no heroes
In the end there's only you

Let me guide you to a different situation
It may be painful but there's nothing to fear.
And you ask me for direction
and I give you an alternative

I shall be judged in weaker moments
But in the end there's only you
Can you see now there are no heroes
In the end there's only you

Let me ask you a simple question
It's easy but it's not that clear
...This is hard for me
And then you guide me
Through a difficult situation
...This is painful and ...This is fear.
Then you ask me for direction
And I give you an alternative
And you ask me for direction
And I give you an alternative

I shall be judged in weaker moments
But in the end there's only you
Can you see now there are no heroes
In the end there's only you.
I shall be judged in weaker moments...
