

My Bird Won't Sing

Dave Hole

The world still turns, and the wind still blows
Sun still shines, and the grass still grows

But since you've been gone
It's a curious thing
No my bird won't sing

My dog still barks, and the rooster still crows
My cat still howls, whenever the full moon shows

But since you've been gone
It's a curious thing
You know my bird won't sing

(guitar)?

The rain still falls, and the rivers still run
I Wake up every mornin', to that same ole sun

But since you've been gone
It's a curious thing
You know my bird won't sing

I sit down every evening, with a drink or two
I turn on the TV, to catch that same ole news

But since you've been gone
It's a curious thing
Honey you know my bird won't sing

(guitar)?
