No Grey

The Neighbourhood

Money, money, money
First things first, I don't want to be forgotten
Even worse, I don't want to be alone
But if it all stops today, I'll probably say
I didn't waste my minutes, when I'm finished.Brand new faith and I'm ready for the camera's mention
And all I pay and my money and my damn attention,
Didn't get me the deal, got me to feel
How you would hear my sentence, when I'm finished.You can do it for the money (money, money)
But the money makes them all the same
Everything's sunny (sunny, sunny)
But the sunshine fades awayEverything's black and white
No grey.Pitch black frames, you could see me when I wear my lenses
And all they say is how I'm fake and I don't get offended
And when push comes to shove, I'll show enough
I didn't mean to listen, when I'm finished.You're insane, what you said when I explained the game plan,
Nothing's changed, except a little more change in my hand,
Now I don't mean to brag, life was in fact,
Not-witnessed shows of women and it's not finished.You can do it for the money (money, money)
But the money makes them all the same
Everything's sunny (sunny, sunny)
But the sunshine fades awayEverything's black and white
No grey.It ended up with gold, but it started as a dream
If I get cold, put some honey in my tea
I used to be broke, now there's money in my jeans
I was broke now there's money in my jeans
(Mmmhm)
I was broke now there's money in my jeans
(Mmmhm)
I was broke now there's money in my jeansYou can do it for the money (money, money)
But the money makes them all the same
Everything's sunny (sunny, sunny)
But the sunshine fades awayEverything's black and white
No grey.Everything's black and white
No grey.
