

I Don't Wish You Were Dead Anymore

Bowling for Soup

You know I only want what's best for you
And I hope you do well in everything that you do
And it's a funny thing but now that you're gone
I don't wish you were dead anymore I hope you're doing fine
I hope you found the time to chase that dream
I wanna see you shine you were always on my mind
And my hearts on my sleeve, do you know what I mean? You know I only want what's best for you
And I hope you do well in everything that you do
And it's a funny thing but now that you're gone
I don't wish you were dead anymore Remember hanging out
There was never any doubt you were on my side
No use living in the past should've know it wouldn't last
Nothing good ever does, but that's alright You know I only want what's best for you
And I hope you do well in everything that you do
And it's a funny thing but now that you're gone
I don't wish you were dead anymore I think about the times we had
And when you left me I was lost, girl, I missed you so bad
I was out of my mind for sure
No matter what I said, I don't wish you were dead anymore I hope you're not alone
I hope you found a home that you can live in
Me, I'm doing good in the old neighborhood
So please don't come back, never come back You know I only want what's best for you
And I hope you do well in everything that you do
And it's a funny thing but now that you're gone
I don't wish you were dead anymore
I don't wish you were dead anymore
I don't wish that you were dead anymore
