

Lemon Juice And Paper Cuts

Camera Obscura

Lemon Juice And Paper Cuts

(Let's Get Out Of This Country EP - 2006)

You're young with the time to afford yourself a few fashion mistakes

You were way out of line when you told that boy of your mission

Make or break a few hearts

He's the one who keeps busy and he runs with all the bands

Little does he know they think of him a lesser man

They see a lesser man

But if you see him

Tell him I'll meet him

On the edge of town

The edge of town

When the lights go down

I got my hair cut today it would have really amused you

We're young and we can be cruel because we choose to

Lemon juice and paper cuts go like me and you

You had a bash at being my friend

It didn't suit you

But if you see him

Tell him I'll meet him

On the edge of town

The edge of town

When the lights go down
