Bolt

Trocadero

Well, she talks like a bullet
And she looks like a goddess
Says she's a traveler
And she knows where she's goingDresses like a model
Talks like a liar
She sounds like a bimbo
But she thinks like a scholarShe's got me, she's lost me
She's got me on my knees in awe
She took me, she shook me
And now I want her all the moreWell, I'm talking straight to her
And I know she's not listening
Why the hell do I find her
So damn impressiveShe has a bad temper
She likes to have control
The fact I don't understand her
Fascinates me all the moreShe's got me, she's lost me
She's got me on my knees in awe
She took me, she shook me
And now I want her all the moreShe's got me, she's lost me
She's got me on my knees in awe
She took me, she shook me
And now I want her all the more
