

# Winona

## Bleak

I tried to call you but the line was busy  
Were you talking to a friend?  
When I tried again much later  
I didn't wanna let it ring againSo you can see I've got a problem  
Back by popular demand  
Sometimes I want to keep it from you  
Sometimes I think you'll understandCould you be my little movie star?  
Could you be my long lost girl?  
It's true that I don't really know you  
And I'm alone in the worldWhen I think maybe I need you  
I don't care if it's not true  
'Cause it isn't so much what I need now  
As what I want from youCould you be my little movie star?  
Could you be my long lost girl?  
It's true that I don't really know you  
And I'm alone in the worldCould you be my little movie star?  
Could you be my long lost girl?  
It's true that I don't really know youI feel alone, I feel alone
