Runaway

Go Betty Go

You've got your priorities
Respect and loyalty
You've got your job and all your things
Your house and companyLook around it's what you wanted
Look around it's what you started
You're giving up on what we had
On what we hadRunaway with me
And don't look back
Spend your days with me
And make this lastIt's something that you never see
My sadness or my plea
This isn't how you used to be
A boy run by his greedLook around it's what you wanted
Look around it's what you started
You're giving up on what we had
On what we hadRunaway with me
And don't look back
Spend your days with me
And make this lastRunaway with me
I know you can
Find a way and please
Forget the pastThere are changes in our lives
There's a way we can survive
