Youth Explosion

The Explosion

We are the ugly faces
In all the darkest places
Careless and impatient
Fell so far from your gracesBusy but fucking bored
The kids that you ignored
But while your back was turned
We crossed the bridges that you burnedLet's go, we gotta get it
There's a fire in this town tonight
Off my feet into the streets and
We're gonna do it rightWe are the ugly faces
In all the darkest places
Careless and impatient
Fell so far from your gracesBusy but fucking bored
The kids that you ignored
But while your back was turned
We crossed the bridges that you burnedWe gotta get it
There's a fire in this town tonight
Off my feet into the streets and
We're gonna do it right
