

Let 'Em Fall (feat. Joe Martin)

Chase Johanson

If you can't hold your heart up high enough,
Let it down
And if you can't make it all the way well then,
Ride along Too many times too many ways
It looks so different but it's all the same So many chances to move on stay strong and fight along-
Side your brother kin
So tell me this one fix and one spark forever gone
On the chin Too many times too many ways
It seems so different but it's all the same You were lost with me in the middle of the sea and the hardest part was
the sympathy that I had for you when the tears came down just sea and the air not a soul around You let 'em fall
You let 'em fall
You let 'em fall
Fall Remember when you thought it then to be oh so easy yes?
Sometimes you're wrong
So stick with me and ride free and feel the breeze next to the sea
Not just for me Too many times too many ways
It seems so different but it's all the same You were lost with me in the middle of the sea and the hardest part was
the sympathy that I had for you when the tears came down just sea and the air not a soul around You let 'em fall
You let 'em fall
You let 'em fall
You let 'em fall, Oooooooooooooooooooooooooo You let 'em fall
