Tell Me How

Chad Brock

Tell me, how'd we ever get this far
And lose each other?
We say we're gonna stay good friends
But I know betterYou leave so little room for doubt
You seem to have this all worked out
But there is one thing before you leaveHow, how am I supposed to live without you?
Now, how do I go on breathing?
When the dream that I've been living's left me now
Tell me how?It feels to be so sure
It's really over
How we gonna tell our friends
We're not together?When people ask where you are?
And break another piece of my heart
Can you tell me what I'm supposed to say?How, how am I supposed to live without you?
Now, how do I go on breathing?
When the dream that I've been living's left me now
Tell me how?Before you turn and walk away
And turn your back on yesterday
And turn us into just a memoryHow, how am I supposed to live without you?
Now, how, do I go on breathing?How, how, am I supposed to live without you?
Now, how, do I go on breathing?
When the dream that I've been living's left me now
Tell me how?Tell me how?
Tell me how?
How?
