

# Love Train

## The Kinleys

Picture us at the station  
Takin a permanent vacation from the old us  
It might take some work  
But dont you think were worthThe aggravation  
I can see you look at me with those eyes accusingly  
But one and one equals two  
Dont forget its me and youWere driving this train off the track  
Gotta turn it around and find our way back  
'Cause the ties that are keepin us together  
Are breakin apart and starting to weatherTheres no one to blame  
We both gotta change  
It takes two to drive  
A love trainIts easy to go north to south  
Slide down hill and start to doubt your commitment  
Gotta watch the path you take  
A short cut just may make or break the connectionSo lets start takin us to heart  
Before we find that were apart  
If heaven is what we dare  
Our love can take us thereWere driving this train off the track  
Gotta turn it around and find our way back  
'Cause the ties that are keepin us together  
Are breakin apart and starting to weatherTheres no one to blame  
We both gotta change  
It takes two to drive  
A love trainLa, la, la, la, la, la
